Home Inspection

Home Inspection **REPORT SUMMARY**

This Report Summary reflects the key findings of our inspection at 3 Roblocke Avenue, Toronto.

ABOUT THE HOME

- **Roofing** – The roof covering is in good condition.
- **Exterior** – The exterior has been well maintained and is in good condition.
- **Structure** – The solid masonry home is supported by masonry and stone foundations.
- **Electrical** – The electrical service has been upgraded to 200-amps, which is suitable for a home of this size.
- **Heating and Cooling** – The cooling system was operating properly.
- **Plumbing** – All visible supply plumbing in the home is copper and plastic.
- **Interior** – The interior of the home has been well finished and maintained.

ITEMS THAT MAY REQUIRE ATTENTION

Insulation - Insulation levels in the attic are lower than modern standards. Adding insulation will reduce energy costs and may improve comfort. This is a discretionary improvement, rather than a repair. (Cost:\$ 1500 and up).

FOR THE BUYER

The first step is to review this Report Summary, which provides an unbiased overview of the home, based on our inspection. This Summary is very helpful, but not enough to make a home buying decision. The second step is to review the complete inspection report and attend an On-site Review with the inspector – contact us at 416-964-9415. The fee is roughly half the cost of a standard inspection. Without the second step, our liability is limited to the party for whom we performed the inspection.

What is a Home Inspection?

A home inspection and report is an in-field performance evaluation conducted to provide information about the present functional condition of the home, based on a visual inspection of the readily accessible features.

About the Report Summary

This Summary reflects the key findings from our inspection, but it is not a home inspection report, and it does not contain all the information provided in the full report.
